LB 308, 1003

SENATOR WARNER: Mr. President, members of the Legislature, this bill, I think I indicated last week the Appropriations Committee had voted to have introduced, extends the license plates for one year and it was contingent upon whether or not it was taken up in some other bill. Since there needs to be before us in some way, have a motion now to introduce the bill and also to place it on General File and it can be there for awhile, but we need a vehicle. I move its introduction.

SPEAKER MARVEL: The motion is the introduction of the bill as explained by Senator Warner. All those in favor of introduction of the bill will vote aye, opposed vote no.

CLERK: It doesn't have a number yet, Senator.

SPEAKER MARVEL: Record the vote. Record the vote.

CLERK: 30 ayes, 0 nays on the motion to introduce the bill.

SPEAKER MARVEL: Okay, the motion is carried. The bill is introduced.

CLERK: Mr. President, new bill LB 1003 introduced by the Appropriations Committee. Read LB 1003. Mr. President, Senator Warner moves to suspend Rule 3, Section 5 and 19, Rule 6, Section 1, to place 1003 directly on General File.

SENATOR WARNER: Mr. President, I would move the motion. I would also presume that the bill would be there awhile until the appropriate time for the Speaker to put it on the agenda and if. . . well we need something for a vehicle to resolve the problem. I move the bill be placed on General File.

SPEAKER MARVEL: Motion is the bill. . . the rules be suspended and the bill be placed on General File. What is 1003? All those in favor of that motion vote aye, opposed vote no. Requires 30 vote. Record.

CLERK: 31 ayes, 0 nays, Mr. President, on the motion to suspend the rules.

SPEAKER MARVEL: The motion is carried. The bill is placed on General File. Next go to Select File, Item #7, first bill is LB 308.

CLERK: Mr. President, when we last considered LB 308 there was an amendment adopted by Senator Simon at that time. Senator Simon then made a motion to indefinitely postpone the bill and that laid it over until today. We now have
